

Northwind Harbor Confidential Memorandum

March 12, 2026

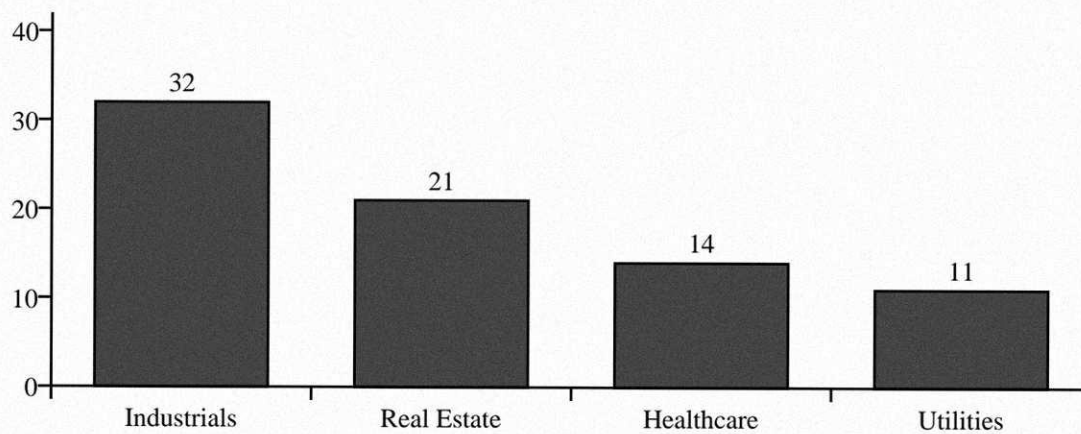

Investment Thesis

Northwind Harbor Capital proposes a concentrated allocation to cash-generating industrial and real-estate operators around the Great Lakes. The thesis is that contracted logistics sites and self-storage can fund distributions while the portfolio waits for a slower rate environment.

Portfolio Holdings

Issuer	Sector	Weight	Cost Basis
Harborline Logistics	Industrials	18.4%	\$42.10
Pebble Reef Storage	Real Estate	12.7%	\$31.50
Quarry Light Transit	Industrials	9.2%	\$18.75
Southglass Clinics	Healthcare	7.8%	\$27.40
Kestrel Grid Partners	Utilities	6.1%	\$15.20

Sector Weights

Principal Risks

- Lease rollover at Harborline Logistics could reduce contracted revenue.
- Higher storage vacancy would pressure the Pebble Reef Storage yield.
- Utility regulation can delay earnings at Kestrel Grid Partners.
