

Cedar and Pine Allocation Memorandum

June 3, 2026

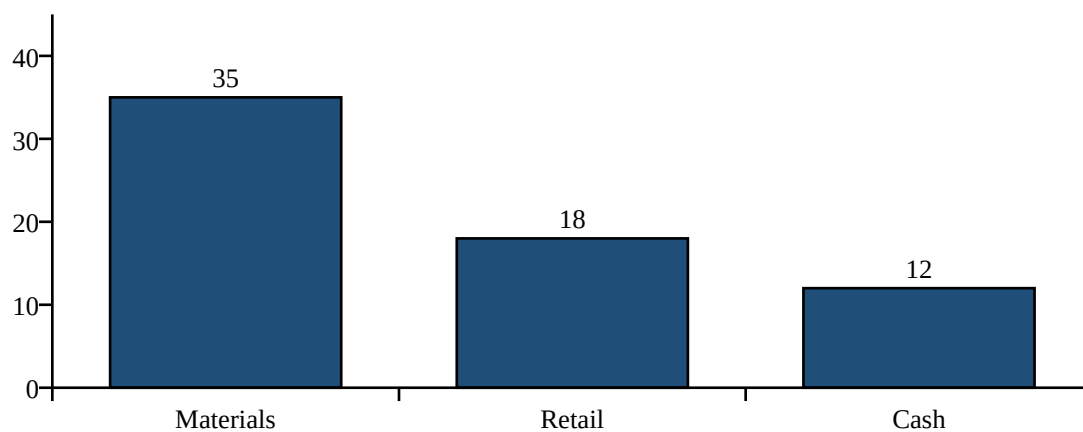

Investment Thesis

Cedar and Pine Partners is reviewing a four-holding sleeve of timber, packaging, and regional retail names. The sleeve is meant to add income that is less tied to coastal housing, and position sizes are capped so no issuer exceeds one fifth of the sleeve.

Portfolio Holdings

Issuer	Sector	Weight	Cost Basis
Silver Birch Timber	Materials	16.5%	\$54.00
Lumen Carton Co	Materials	11.3%	\$22.80
Marigold Market	Retail	8.9%	\$14.60
Ironbrook Packaging	Materials	7.4%	\$19.25

Sector Weights

Principal Risks

- Timber prices can fall faster than Silver Birch Timber can cut harvests.
- A packaging surplus would narrow margins at Lumen Carton Co.
- Same-store traffic at Marigold Market is sensitive to fuel costs.
